DETAILED ACTION

Response to Amendment

1. Claims 30 and 31, drawn to methods of screening compounds stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 4

2. The requirement for election of species of record in herein withdrawn.

3. Upon review of the claims, the following additional requirement for restriction is seen necessitated.

Election/Restrictions

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-6, drawn to compounds and pharmaceutical compositions thereof, classified in class 546, subclass 334.

II. Claims 7-29, drawn to methods of use, classified in class 514, subclass 357.

The inventions are distinct, each from the other because of the following reasons:

5. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP

Art Unit: 1624

§ 806.05(h)). In the instant case the method of use can be practiced with compounds other than those of Group I. Note the difference in scope of the compounds in the compound and method claims.

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

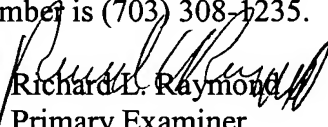

7. Applicant is advised that the reply be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
